

Marshfield High School

What makes our team special?

What team do you know that played back to back games in Beverly Hills, California and Gillette stadium? Well the Marshfield High School Rams did just that last year. You ask, how could this be accomplished? It's thru dedicated athletes, town and community support.

First and foremost, community, community, community! The team is very fortunate to have such strong town support which is reflected by filling the stands each and every game, donating items and financial sponsorships. Community support is best exemplified when the varsity and junior varsity football and cheerleading teams were provided the opportunity to travel to Beverly Hills California for an educational experience as well as to play a non league games. Individual fundraising for the trip was also made possible by allowing the squad members to stand outside local businesses.

The next area that makes the RAMS special is their long tradition of winning. This can be represented through their leadership and coaches who expect nothing but the best on and off the gridiron. On the field they have captured many leagues titles in various conferences and superbowl appearances. Off the field, the winning tradition continues, by producing many scholar athletes. These student-athletes are rewarded by receiving academic/athletic scholarships when applying for colleges and continuing their higher education. This gridiron tradition also holds true for the cheerleading squads, faithfully supporting the team and community at every game with their spirit and incredible half time routines. They have won many competitions and league titles while producing academic excellence.

Another way these high school student/athletes are special is by giving back to the community and youth programs from which they participated. They make time out of their busy schedule and summers to assist in teaching, student coaching and mentoring these youth football and cheerleading programs. The younger athletes are able to see that through hard work and determination they too can achieve excellence. It's a true pleasure to see how these younger, influential athletes react as they 'High Five' their local heroes when attending Friday night games.

After all is said and done, it's evident that the RAMS from Marshfield are a special team, supported by a special community.

Finally, please view our videos at <http://www.youtube.com/watch?v=X6QxruWcTyY&NR=1> (may need to cut and paste into browser) captured the day of one of our superbowl appearances. Listen to the motivational words from coach and team leaders. It says it all. The other video reflects the Beverly Hills experience which can be viewed at <http://www.marshfieldgridiron.com>.
